

Marco Vandone

Profile Summary

A versatile Ph.D. in Chemistry with expertise in material characterization, metal-organic synthesis, and advanced data analysis. Proficient in Python, data analysis and lab techniques. Experienced with 3D CAD modeling/printing and DIY electronics. Strong communicator; works independently and in teams.

Personal information

Citizenship: Italian

Languages: Italian (native),
English (fluent), Spanish (basic)

Skills

- ◇ Synthesis and crystallization of metal-organic compounds and API
- ◇ Lab Techniques: XRD, Porosimetry, NMR, IR-Raman, TGA-DSC, SEM-EDX, ICP, MS, HPLC, Optical Microscopy
- ◇ High-vacuum + gas-dosing setups, Swagelok systems
- ◇ Python, C/C++, TypeScript
- ◇ Word, Excel, Power Point, Access
- ◇ Problem solving & critical thinking
- ◇ Teamwork & collaboration
- ◇ Independent project management
- ◇ Scientific writing & presenting
- ◇ Multicultural adaptability

Experience

R&D chemical and microbiological technologies Specialist

Goglio S.p.A., Daverio, VA, Italy

Oct 2025 – Present

- ◇ Developed novel antistatic/antioxidant formulations for active flexible packaging.
- ◇ Developed novel catalysts for polyurethane reticulation reactions.
- ◇ Created python based in-house rheological data analysis tools.

Research Fellow

University of Milan, Milan, Italy

Oct 2024 – Oct 2025

- ◇ Supervised MOF synthesis/characterization for CO₂ capture and pharmaceutical API crystallization. Developed Python packages for synchrotron batch analysis; designed Swagelok high-pressure/vacuum systems; created SOPs and trained staff.

Coordinator and Main proposer of allocated beamtimes at synchrotron facilities

Oct 2021 – Dec 2024

- ◇ Proposed and led synchrotron experiments on CO₂ capture and methanol catalysis, coordinating design, data collection (PXRD, PDF, XAS, XES), and analysis.

Independent Consultant

Ambro Polymer, Bodio-Lomnago, Italy

Jan 2021 – Jan 2024

- ◇ Troubleshoot chemistry-related issues in the analysis of polymeric materials; advised on the selection of analytical instruments for quality control (QC) of polymeric systems.

Education

Ph.D. in Chemistry

University of Milan, Milan, IT

Oct. 2021–Oct 2024

Investigated the nature of the active sites during catalytical and adsorption process in porous metal-organic materials (MOFs) using advanced spectroscopic and crystallographic techniques.

Visiting Ph.D. student at MIT (Boston, USA)

Massachusetts Institute of technology, Boston, USA

Jan–Dec 2023

Visiting student at ICMM-CSIC (Madrid, Spain)

ICMM-CSIC, Madrid, Spain

Mar–Jul 2021

Master's degree in Chemical Sciences

University of Milan, Milan, Italy

Oct. 2019–Oct. 2021

Bachelor's degree in Chemistry

University of Milan, Milan, Italy

Oct 2016–Oct 2019

Awards & International Conferences

- ◇ Awarded 7 travel grants and 2 Best Presentation Awards at international conferences
- ◇ Presented research at 15+ international congresses (9 oral, 5 poster presentations)
- ◇ Received a €4000 bursary for a research stay abroad
- ◇ Member of the organizing committee for a series of international schools on porous materials

Publications

Published 8 scientific papers in leading journals, including Science and JACS, and contributed to the peer-review process for the Inorganic Chemistry Journal.
